

Emerging Entrepreneurs

Our business attorneys recognize and appreciate the value of entrepreneurship and innovation, and are committed to providing efficient, straightforward and business-oriented solutions that facilitate success and avoid pitfalls while recognizing early capital is precious and expensive.

FENNEMORE VENTURE ACCELERATOR

Our Fennemore Venture Accelerator Program focuses on start-ups by providing access to legal services, as well as helping to launch their enterprises. Through this start-up initiative, we will defer a modest amount of legal fees for those accepted into the program and a small equity investment will be made through a separate fund.
